

The Governance Policy of the BCA Board establishes parameters and monitors the performance of the Director in the management of BCA. Therefore, any applicant for the BCA Director position must agree to work under the direction of this model.

The Governance Policy model consists of concepts and principles that enable accountability of both the Board and Director. The Governance Policy model honors the exclusive authority/accountability of the Director as the sole connector between the Board and Staff. In this way, the Director is free to manage the school daily without interference from the Board as long as the Director is compliant with the established parameters.

For more information on Board Governance, as adopted by the BCA Board, please consult *Boards That Make a Difference* by John Carver and/or email office@BCAromania.org for a copy of BCA Board Policy manual.
